

Reaching out, Instantly

With over 50 years in the coffee business, the SLN Group has ensured that, when it comes to coffee, hardly any one can do it better. We have a heritage of delivering the coffee experience, from plantations to packaging, that ensures that our customers enjoy every cup - wherever they are in the world.

At SLN we've made your coffee our passion!

SLN Coffee Private Limited

SLN Group is a Karnataka based fastest growing FMCG Company, since inception we are providing excellent quality products packed under most hygienic condition with optimise supply to our customers. Over the year we have expanded our business in coffee market from our own brand SLN and penetrating our reach by serving popular Private Label Brands.

Each of our clients is rendered specialized attention and customizes service as per their requirement and suggestions. In addition to that we also offer on-site shipment inspection by worldwide renowned body like Bureau Veritas, SGS, Contecna etc. These agencies ensure us to control quality, efficiency, and continually serve the globe with vigorous dedication and trust.

Our Coffee products manufacturing facility is an internationally known and reputed unit in the world. It is India's one of largest integrated coffee company, producing some of the best coffees in the world, with an installed capacity of 7500 tons per annum producing Spray Dried Agglomerated Instant coffee. The company's processing technology is the very latest with equipment procured from Brazil and Switzerland and Turkey.

Its activities range from the growing and curing of coffee to the manufacture of value-added coffee products. The company has more than 15 per cent of the Indian coffee curing capacity and exports around 65 per cent of the coffee grown from its own estates.

Our Global footprints

Instant Coffee

AGGLOMERATED COFFEE

Pleasantly mild body, aromatic, and well-balanced Agglomerated Coffee is SLN's best quality coffee made from finest Arabica and Robusta blend that combines the finest aroma of Arabica with the strong taste of Robusta. This blend is very popular among customers worldwide owing to its pleasant mild body and well balanced taste. Moreover, the granule size and uniformity matters the most while creating agglomerated coffee. We have presented excellent golden and dark brown agglomerated coffee as preferred by international buyers and customers.

SPRAY DRIED/POWDER COFFEE

Spray dried powder coffee is very widely used instant coffee product type across the world. This product is made of mixture of concentrated aroma and hydrolysed fractions added with preserved aroma. In order to retain the aroma in cafe original, drying extraction takes place under low powder temperature by controlling bulk density and colour factors. Its aroma echoes sentiments and ensure you original coffee taste and pleasure.

Green Coffee Beans

SLN is one of the leading exporters of green coffee from India and a strong player in the global coffee market. With a manufacturing capacity of 30,000 MT per annum, SLN is a supplier of quality green coffee to most of the leading exporters and domestic coffee houses in India. The company's annual turnover is over USD 100 million.

Roasted Coffee Beans

Apart from the trade in Green Coffee, we also have an end-to-end facility for the production of premium roasted and ground coffee, for connoisseurs of the coffee experience. Our involvement in the procurement of coffee beans is intensely personal and our people are the best in the business. We pick only the choicest beans, running through several layers of quality checks before they even make their way to the roasting process. With carefully selected equipment made by the world's best manufacturers, we ensure that the beans are roasted just right. That's what the coffee business is all about, after all-getting it just right. Our exclusive range of quality coffee blends have accorded us the privilege of being the sole suppliers of these blends to one of the leading beverage business houses in India. In other words, the choices are very high that we have everything to do with your morning cup of coffee.

Our Packings

JARS

At SLN, we have the capacity to offer coffee packed in 50 gms, 100 gms, 200 gms jars. The jars and the caps can be customised in varied shapes, and printed or embossed with labels and design/ logo, as per the requirements of the customers.

POUCHES / SACHETS

We have in house facility to pack coffee in sachets and pouches of varied sizes, ranging from 1 gm to 1 kg. These sachets and pouches can also be customized with artwork and printed with labels and design/ logo, as desired by the customers.

DOYPACKS

We offer coffee packed in doypacks. These packs too can be costumed in sizes and shapes and printed with labels and design/ logo as per the requirements.

TINS

Tins packs are also packed at SLN packing facilities with varied shapes and sizes. Most commonly used are the sizes in 50 gms, 100 gms, 200 gms, ordered by our customers, in their own brand artworks for their respective markets.

BULK BOX

SLN also packs freeze dried and spray dried coffee in bulk, in corrugated boxes, which can optionally be palletized as per the requirement of the customer.

SLN reaches out to you in many ways. The latest is a 7500MT capacity plant for soluble coffee powder, built on a sprawling 17-acre complex in Kushalnagar (Coorg), the home of Indian coffee. With the very latest and most sophisticated Roasters, Grinders, Centrifuges, Pulverizers and Can Packing Systems imported from the very best manufacturers, we have dedicated ourselves to ensuring that our products are the very best in the soluble coffee market space. A unique Aroma Recovery System ensures that your cup of instant coffee smells exactly the way it should, and the cutting-edge Spray Driers are meant to retain every last bit of that delicious coffee flavour.

The soluble coffee plant is operated to the most stringent of quality checks and environmental safeguards, from bean selection to finished product packaging, again focused on providing the best coffee experience you can ever have.

Passion of Quality

For the people at SLN, coffee is not just doing a job, it's being passionate about what you do. From our plantations, Which are carefully monitored and tendered by people who understand what growing coffee is all about, to our procurement and selection process, to the equipment we use, our packaging and our operational processes, we check and check again. Then, we check yet again.

Our in-house tasters, superbly-equipped laboratory and an array of technological and personnel resources, all go into keeping our promise that your cup of coffee will taste just....fabulous.

Sustainable Growth

Our planet is precious, and we consider it important that whatever we do should enhance the quality of the environment, and never degrade it in any way. Our plantation practices and manufacturing facilities are monitored carefully to ensure that we cause no environmental harm, either by intent or by negligence. Acres of eco-friendly vegetation cover our manufacturing facilities, and the focus on providing a low-footprint, healthy work environment is our guiding light.

We constantly innovate, finding new ways to make this world a greener one-after all, it's the only one we have!

Certifications

We are committed to ensuring that our products are manufactured to the most stringent standards of safety, hygiene and purity. We have taken every possible step to conform to the demanding international specifications set forth by global bodies such as the ISO and even the FDA. We follow GMP and are FSSC 22000 certified in the business of food product manufacturing and processing and our products are Kosher and Halal certified. They have repeatedly satisfied the most demanding international clients. Little wonder then, that our export business is growing by leaps and bounds every year!
